

iDigi® Manager Pro™

Device Network Management Software as a Service

The screenshot shows the iDigi Manager Pro web interface. The top navigation bar includes 'WELCOME', 'iDIGI MANAGER PRO', 'WEB SERVICES CONSOLE', and 'ADMINISTRATION'. Below this, there are tabs for 'Devices', 'XBee Networks', 'Data Services', 'Operations', and 'Schedules'. A table lists various devices with columns for MAC Address, Device ID, IP Address, Device Type, Description, and Status. The status column uses green for 'Connected' and red for 'Disconnected'.

MAC Address	Device ID	IP Address	Device Type	Description	Status

Overview

iDigi Manager Pro delivers capabilities that empower IT, network operations and customer support organizations to conquer the challenges of managing the vast array of equipment in their device networks. As a network grows, the complexity of effectively managing the network assets grows exponentially.

Hosted on the massively scalable, high-availability iDigi® Device Cloud™, iDigi Manager Pro grows and adapts with the growth of a dynamic device network, enabling an organization to manage the resulting complexities and keep the network healthy and efficient. iDigi Manager Pro directly tackles and conquers the universal problems of a dynamic device network:

- Centralized control over large numbers of devices
- Reducing service complexity
- Maintaining high levels of security
- Provisioning of new equipment
- Decommissioning of equipment
- Adding functionality to device networks

A feature of all Digi gateways, routers, device and components, iDigi Manager Pro provides a robust suite of network management tools with centralized control via the iDigi Manager Pro service module. Additionally, the iDigi® Connector™ facilitates easy integration of third-party devices with iDigi.

For more information about iDigi Manager Pro, please visit www.idigi.com or call 1-877-IDIGI-EZ.

Features/Benefits

- Device Connectivity - Integrate any device type via the iDigi Connector
- Centralized Control - Manage configurations, settings, firmware updates and software down loads
- Groups Management - Group devices for maximum efficiency and ease of control
- Scheduled Operations - Automate device management tasks
- Security - Role-based access control, IP-net restrictions
- Short-Message Service (SMS) - On carriers worldwide

Pay-As-You-Use Model

iDigi Manager Pro is a subscription-based web application service. It's simple to create an account at my.idigi.com and register devices. Low monthly fees are based upon number of registered devices. There is no long-term contract and devices can be deactivated at any time.

Centralized Control Over Large Device Networks

iDigi Manager Pro's comprehensive suite of network management tools empowers IT and customer support organizations by enabling instant changes and updates to devices. The authentication, configuration management, account management, monitoring, group control, network data storage and gateway programming capabilities yield dramatic results in terms of efficiency and cost-effectiveness.

Scalability

iDigi Manager Pro is hosted on the iDigi Device Cloud, a commercial-class platform that provides scalability on-demand. iDigi's elastic cloud will accommodate your growth – uninterrupted and without the need for capacity planning.

High Availability

Since iDigi Manager Pro is hosted on the iDigi Device Cloud, it benefits from iDigi's high-availability architecture. Designed to achieve 99.9% availability or greater, iDigi is monitored 24 hours a day, 365 days a year.

Security and VPN Service

The iDigi security policy is based upon a control matrix developed to support the standards set forth by the National Institute of Standards and Technology (NIST), ISO/IEC 27002, North American Electric Reliability Corporation - Critical Infrastructure Protection (NERC-CIP) and the Cloud Security Alliance (CSA). Within the cloud, iDigi security technologies and processes prevent, detect, respond and audit cyber threats on a continuous basis. The iDigi Virtual Private Network (VPN) Service equips business for conducting secure transactions between devices and iDigi Manager Pro over the public internet. With the iDigi VPN Service, a business will benefit from superior reach, quality of service and cost savings.
