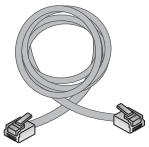
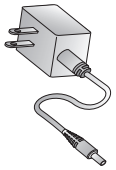
ConnectPort X2e SE



Ethernet Cable



Power Supply

Quick Start Guide

ConnectPort® X2e

Smart Energy

90001262_D

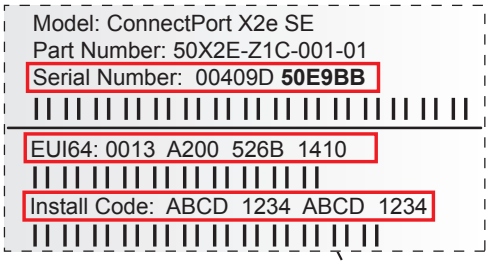
2 Write Down the Serial Number

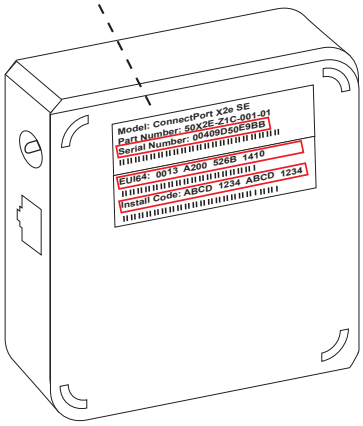
Write down the following located on the back of the **ConnectPort X2e SE :**

Serial Number: _____

EUI: _____

Install Code: _____





NOTE: The Serial Number is also the Ethernet MAC address, which will be needed to complete Step 4a.

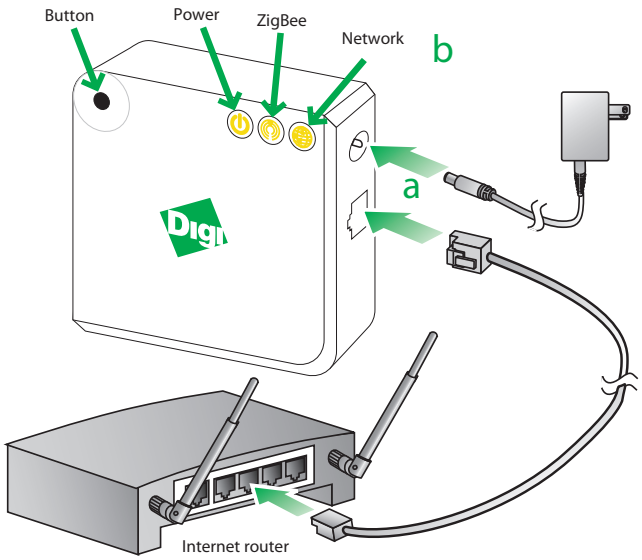
NOTE: EUI and Install Code are needed in step 4 when adding the Router variant of this model to a Smart Meter (or other Coordinator).

3 Connect Hardware

a Connect the Ethernet cable

b Connect the power supply

c **Startup Sequence -** After plugging in the device the Power and Network LEDs will gradually turn solid green.



4 Online Installation

IMPORTANT: The Router variant of this model must be successfully joined to a Smart Energy network before moving on to step 4a. Please contact the Utility or owner of the Smart Meter (or other Coordinator) if unsure how to add your Router to the network. The Router must be powered ON when being added or removed on a Smart Energy network.
